

Capes and Collars Give Picturesque Touch to Gowns

By MARJOLAINE, Paris.

This season there is a decided difference of opinion as to the line that will dominate in the domain of dress. houses have welcomed the ouffant drapery, the frills and furbelows that emphasize the return to more strictly feminine styles. At the same me, many beautiful modes cut on straight directoire lines are appearing. and their elegance is indisputable. Per sonally. I think this affords an excep-tional opportunity for women of very different type to accentuate their individual style of dressing.

A picturesque model is depicted in the sketch, and in it some of the newest deas are realized. This gown is made of white charmeuse, a fabric that is much esteemed for its fine draping qualities. Over this a cassock of white mousseline de sole is effectively draped. It is trimmed with lace which ripples down one side, and ends in small flounces above the hem. On the corsage the mousscline de soie le arranged in triangular shape and further enriched with lacey

The short sleeves are bedecked with a three-storled flounce of the lace, while across the shoulders is hung a cape of black velvet. The narrow band that circles the waist, although it is almost hidden by the blousing drapery of the orsage, is also made of black velvet. Black and white will be among the favored combinations for spring wear, and some black silks have been designed with unusual motifs in white. Another with unusual motifs in white. Another very attractive silk gown in many very beautiful colors is woven with fine black lines that run both ways of the fabric, so that a check effect is obtained. This with the self-color of the silk forms a de-

with the self-color of the silk forms a de-lightful background for the delicate clusters of flowers—natural and conven-tional—that dot its surface. Blue is one of the most popular colors for spring, and some of the smartest tailored frocks are developed in garbar-dine. These are sometimes designed in coatlike style, but one will often notice a short pepium of piaid or Roman stripe slik extending below the short coat, or appearing at either side of the jaunty black.

appearing black.

This arrangement gives a dash, of brightness to many a simple dress, while the delicate lace and tulle guimpes and ruffles also add to the charm of the dispulses creations.

Neckwear assumes a very important position in the newest dresses, and many distinctive skyles have been originated. The Medici collar, the ruffles of long ago queens, and the dress of the Normandy peasant have all inspired modes that are as practical as they are artistic. Lace and tulle, with daintiest nets and hiffons, are mostly chosen for these airy

BY ANNE RITTENHOUSE.

and on the skirt and about the girdle. This wide ribbon, cut, naturally frays, and the effect is quite good.

Girdles are made of wide taffeta and moire ribbon. Sometimes they are made with wide bows at the front or back and sometimes they end in sash ends at the left side. These ribbon sashes or girdles are used on most of the washable afternoon frocks.

As for blouses there is hardly one that does not show ribbon somewhere. In some of the new lace and chiffon blouses ribbon still appears in the form of a band under the chiffon or lace across the back and front just above the waist. In the blouse sketched it is shown arranged in this way.

and on the skirt and about the girdle

DEMAND FOR RIBBON

Special Correspondence of The Star.

FOREIGN FASHIONS FOR AMERICANS

BY LILLIAN E. YOUNG. at Correspondence of The Star.

MONTE CARLO, March 11, 4914. Almost all of the evening gowns flown here show a wide and varied use of handsome embrolderies. Net and chiffon seem to be the favored mastuffed embroidery or delicate tracery when fashion favored extremes of femi-in beads or metal thread. One very ninity there is always a great demand in beads or metal thread. One very beautiful evening gown of ivory white satis had a most effective embroidered tunic of silver net, studded with small turquoise nail heads and cut steel beads. It was topped by a broad girdle of turqueise blue veivet, swathed about the waist. The corsage was of white the waist. of turqueise blue velvet, swathed about there is a run on the ribbon counters. he waist. The corsage was of white

WENING GOWN IN WHITE AND EMERALD GREEN SEEN IN NICE hiffon, with the sleeve ends and decolletage outlined with cut steel beads. The white charmeuse skirt was gracefully draped from the waist line and

And so it is with all of the newest evening gowns. Vivid contrasts and bright colors are always used.

In the gown here sketched white satin makes the skirt, while an emerall green net is used for the tunic and sash, embroidered in mauve and white. There is a bodice of white chiffon draped over an underwaist of net. The latter is crossed in front to fill in the decolletage partially. I straight band of the embroidered net runs all around the lower portion of the bodice, and excepting the open space in front this entirely velled by the chiffon.

Simple Toys That Amuse Children.

Down on New York's East Side, where a new sky building is going up, overtopping the tenements, a big pile of sand has been left by the workmen. Every evening this sand heap looks like a huge anthill. As soon as the 6 o'clock whistles blow and until clock hands point to 12 p.m. the sand is covered with children-children eager to play, but having no playthings. Out of the doors of the tenements they troop, armed with spoons and paper bags. Crowding, pummelling, jostiling, they struggle for a place on the

carry home and help them in their play.

Every child loves, wants, needs to dig in the dirt. Your child is a little savage son of Adam, longing to feel the earth, and the happiest plaything with which you can provide him is an indoor seashore—a tray of sand in which he can model.

model.

Let him have your largest agateware dripping pan and fill it with white sea sand, which you will be able to buy by the bushel at a feed store or a florist's. Set this homemade sand on a low table that after a light the seattered. dripping pan and fill it with white sea sand, which you will be able to buy by the bushel at a feed store or a florist's. Set this homemade sand on a low table covered with officioth, so that stands that the bushel at a feed store or a florist's. Set this homemade sand on a low table covered with officioth, so that stands that the will be happy playing fit it for months.

Baby fingers may be tausht to make balls of the damp sand, smooth it down into fairy roadways, set in a row of sea shells to make a miniature beach, where the dolls may play at swimming, or shape sandhouses, modeled after the fashion of the architecture of the mind belieful fastime in making sand landscapes to illustrate her favorite story book tales. Twiss stuck in the damp sand to illustrate trees and a little cardboard house set at one end of the sand tray will tell the story of Red Riding Hood if a tiny china doll dressed in scarlet cape and hood stands at the door of the house. The beloved old story of the Town Mouse and belieful the story of Little Boy Blue may be illustrated by making a miniature straw hay mow in the sand and cutting out of white paper little sheep that browse in the other end, connecting these bits of country and town with a little pebble-outlined sand road. Along this road scamper two toy mice. The story of Little Boy Blue may be illustrated by making a miniature straw hay mow in the sand and cutting out of white paper little sheep that browse in the other end of the sand tray. So the store the with bits of conton batting on which frost powder is sprinkled, cut out of cardboard as mail sled and a pair of does to stand in front of one of the huts, and Mountain ranges caser hands and Mountain ranges caser hands and Mountain ranges casers hands and Mountain ranges caser hands and mut at the must define in school without, perhaps, rever seeing, will take form under his hands in this home sand tray.

And the children will invent a hundred other plays. Give them some sand too-more wand let them find out tis fun.

New Ways t

New Ways to Cook the Winter

Vegetables. Pea Cakes.-Boil three cups of peas in salted water until tender. Drain and mash, seasoning with salt, pepper and outter. Make a batter of a cup of milk, two beaten eggs and half a cup of

flour sifted with half a teaspoonful of terials for a groundwork, and these are

A New York authority on woman's baking powder. Stir the pulp into the claborately ornamented with heavily dress remarked truly the other day that

There is hardly a hat without its own of ribbon and many of the most effective are trimmed entirely with ribbon.

Ribbon ruchings are in high favorthey go with the styles of the second empire. Many of the new frocks are outlined at the neck with ribbon ruchings. And box-pleated frills of narrower ribbon finish the sleeves and neck lines of many of the new silk coats.

A trick for trimming some of the new white lingerie frocks is to arrange tiny knots and ends made of strands or strips cut from wide ribbon along the shoulders and on the skirt and about the girdle.

paper bags. Crowding, pummeling, jostiling, they struggle for a place on the sandpile and fill their bags with sand to carry home and help them in their play.

Every child loves, wants, needs to dig Finely chopped mint may be added to the seasoning and cubes of cooked carrot to the sauce.
Dried Peas a l'Alemande.—Soak a pint

Dried Peas a l'Alemande.—Soak a pint peas over night. In the morning drain and put into an earthen baking dish with six sliced onions, sait and pepper to season and two cupfuls of boiling water. Cover and simmer for half an hour; then add a half cup of well washed rice and cook for half an hour longer. Serve with a sauce made of a pint of stewed and strained tomatoes thickened with two tablespoonfuls of flour cooked in butter and seasoned to taste.

Peas en Croustades.—Boil a quarte of peas with a sprig of mint until tender. Make a sauce of one cup of milk, one tablespoonful of butter, the yolks of three eggs well beaten and sait and pepper to season. Mix with the peas and fill Swedish timbale shells or croustades. These are made by cutting stale bread in blocks hollowing out the centers and toasting or frying the shells thus made. Half a cup of cooked carrots cut into dice, fried in butter and seasoned with a few drops of lemon juice may be added to the peas.

fried in clear, bubbling butter or other at which has not become hot enough to burn. They shoul' be quickly cooked in two or three teaspoonfuls of cream, and the moment this is hot serve the and served immediately before they have eggs. had a chance to become tough from standing. One way to fry an egg successfully is to put a couple of tablespoonfuls of butter in a small iron skillet, not more than six inches in diameter, and when it is bubbling drop an egg in it.

Keep the skillet moving and keep the egg in a small space, that is, do not let it spread all over the pan. With a silver poon draw some of the white over the yolk so that the whole egg will look white and filmy when it is done. When it is done slide it on a perforated ladle, let-ting the butter run into another dish. It can be put back in the little skillet and used again. The ladle should be warm, and the minute the egg is drained it should be slipped on a hot plate and served. This frying operation when mas-tered takes only a couple of minutes, sometimes not more than a minute, for

Coddled eggs are the best eggs for the egg cup at breakfast. They are more delicate than soft boiled eggs and less trouble to prepare. Put the eggs in boiling water, cover them quickly and immediately remove them to a place where the water will stop boiling. In five or six minutes the eggs will be "soft boiled," and in eight or ten they will be medium for those who do not like them very soft. They are practically like jelly, no matter how long they are cooked in this way, and are said to be much more digestible than cooked in any other way.

Possibly because their price entitle them to a place among the luxuries, scrambled eggs have been much in demand this winter at the restaurants as a supper dish. There is an art in scrambling eggs so that they are acceptable as Fried eggs are most often offenders against the rule which demands neatness in the service of eggs. They should be bling eggs so that they are acceptable as an after theater supper treat. To begin with, scrambled eggs should be served the minute they are cooked, and so they can well be prepared in the chafing dish after the supper party has assembled, as it takes only a few moments to cook them. Put a scant ounce of butter in the blazer over a low flame and pour in three eggs, mixed in a bowl with a little pepper and a teaspoonful of salt. Beat the mixture after it is in the blazer until it begins to thicken. Then
